

Q Academy Clinic Survey

email to: student.services@qacademy.com.au

Q Academy is continually seeking industry feedback to help shape the direction of the course development and skill sets of students. To assist us in this process would like you to provide some feedback.

1, 2, 3 are general questions, we welcome feedback from any industry stakeholders
4 & 5 are specific to Q Academy graduates and would only apply to an employer of a graduate

With all the answers please provide as much information as you can – all the fields will expand. Feel free to fill this in and submit it multiple times as your needs change and as you start to track some of these requirements.

1. What are the most common conditions your therapists treat?

E.g. General pain, TOS, upper cross, muscle tears, frozen shoulder.

2. What assessment techniques does a therapist need to know?

E.g. ROM, resisted isometrics, TOS assessment, vertebral artery

3. What treatment techniques do you need a therapist to know

E.g. Deep tissue, stretching, reflexology, dry needling, MFR, pregnancy, cupping

4. What do new **Q Academy** graduates need in-house training from your clinic?

E.g. Communication, sales, assessment, treatment, hygiene

5. Is there any other feedback or areas for improvement you would like to see in new **Q Academy** graduates? This is completely open, knowledge or skills based.
