What is Remedial Massage?

Remedial Massage is much more than the traditional relaxation massage.

It is similar to what other countries call medical massage, chiro massage or muscle therapy.

Remedial Therapists' treat clients for muscle pain, musculoskeletal imbalance and movement restrictions.

Remedial Massage is a nationally recognised, therapy-based treatment modality with the Australian Allied Health system.

Our graduates can register as a qualified Remedial Therapist with private health funds to offer their clients financial savings just like chiropractors and physiotherapists.
